Professional Summary

I am currently a student at the NWU hoping to pursue my honours degree and eventually become a Data analyst.

I love turning complex problems into elegant solutions through code and technology. Whether it's analyzing data, building tools, or tackling new challenges, I thrive on continuous learning and delivering results.

I'm always up for a good challenge and committed to seeing every goal through to the end.

Skills

- Time management
- Adaptability
- Programming (Java, Python and C#)
- Project management
- Critical Thinking

Professional Experience

Student assistant (CMPG 222), North West University
